

# CONSTRUCTION MATERIAL STORAGE

Lower construction project costs with convenient material storage options.

## Secure & Controlled

How are you managing materials for your construction projects?

**Reduce costs and protect your investment** with our material storage for construction projects. We'll house your materials at our Binghamton, NY branch in our 11,000 square-foot warehouse for a fraction of the cost of traditional on-site containers. Upon receipt, our staff will verify material types and volumes and start any damage/missing claims, saving you time and frustration.

### Our material storage program includes:

- Secure, climate-controlled material storage
- Receipt inspection for visible damage and material counts
- Claims initiation for damaged material replacement as needed
- Loading dock available for material pickup

# CONSTRUCTION MATERIAL STORAGE

## Additional Options

- Material delivery
- Material staging
- Short-term storage (1-3 months)
- Long-term storage (4+ months)

## Material Storage Program Responsibilities

We'll work with you to ensure we have all the information we need to store your materials until you need them.

### Customer Responsibilities:

- Provide insurance for stored material
- Provide 24-hour notification prior to pick-up
- If delivery is included, provide 48-hour notification with an address and point of contact
- If material staging is included, provide preparation guidelines

### Horizon Solutions' Responsibilities:

- Maintain records to track shipments received to assure all products are received from various manufacturers
- Provide receipt inspection for visible damage and material counts for all shipments
- Initiate damaged material replacement and return with vendors after receipt inspection, as needed
- Provide notification to customer regarding material received and inspection results
- Prepare material for pick-up and/or staging (if included) within 24 hours of notification
- Prepare material for delivery to job site within 48 hours of notification (if included)
- Provide timely billing of material stored in our facility with line item identifying material storage costs
